President’s Letter

NEW CLUB PRESIDENT BEGINS 1st TERM

I would first like to thank the club for entrusting me with the office of President and then express a sincere thank you to our outgoing President, Ron Pankiewicz. Ron, your dedication to the breed is one to aspire to. Please know you are not completely off the hook though, since I will be turning to you and Ken Edmonds for guidance in my new undertaking!

I would also like to thank those board members who are stepping down and welcome those newly joining us. As Ron mentioned in our last newsletter, Gale Mattison left the board after many years of service and now limits his work to serving as our TTCA National Specialty Show Advisor. Rob Smith didn’t really step down since he is now our new 1st Vice President. Welcome! Newly joining us on the board are Krista Johnson, from Iowa, and Karen Tromblee, from Florida, both of whom have much to offer. I am not only looking forward to working with this group, I will be relying on their wisdom and experience throughout the upcoming year.

PRESIDENT’S LETTER

(Continued from page 1)

I first became a member in 2002, joining the TTCA Board in 2010 as one of the directors, and then graduated to the position of 1st Vice President in 2012, where I have served until now. I acquired my first TT in 2001 and have loved the breed ever since. I bred my first litter in 2005 and became a TTCA Breeder of Merit in 2013. I have met many of you when showing in conformation and agility and look forward to making new friends throughout the TT world as I strive to serve as best I can. I am feeling a bit overwhelmed at the moment, since I am also the 2017 TTCA National Specialty Show Chair, but I will do my best to fulfill my responsibilities and work hard to continue in the direction of those who have served before me.

At this time I am turning to each of you to provide me with your thoughts on how to continue to grow the TTCA and foster our dedication to protecting our breed. Just drop me an email at abrich27@aol.com and I will do my best to listen to each of you.

Personally, I hope to grow our membership, because I know there a many TT lovers out there who are not currently members, in spite of sharing our passion for the breed. One way I hope to attract new members is to ask breeders to invite their new puppy owners to participate in this year’s Tibetan Terrier Companion Celebration, which will take place during this year’s TTCA National Specialty on Tuesday afternoon, May 30. It is meant to be a fun and social event for all. (Please see the flyer on page 14 in this newsletter). We also would like Tibetan Terrier breeders to encourage their new puppy and dog owners to join the TTCA. Another goal, which is already on the docket, is to continue to support to honor performance TTs. Claire Coppola has been working with Mary Martin to develop a new TTCA Versatility Award in the performance arena. We will share more on this new venture as it develops.

More exciting news is about the 2018 TTCA National Specialty at Purina Farms, Gray Summit, Missouri, which is scheduled to run April 30 – May 2, 2018. Its committees are coming together to make a great show! The TTCA National Specialty Futurity Judge for 2018 will be Andrea Reiman. To support the 2018 show, be sure to attend the TTCA Auction Fundraiser on Wednesday May 31, 2017 at this year’s TTCA National Specialty. For 2019, TTCA members have elected Mark Kennedy to be our conformation Judge.

Looking ever-forward, the 2019 TTCA National Specialty is now on the books. It is to be held at the Boxboro Regency Hotel, Boxborough, Massachusetts, May 30-31, 2019 at the same site as the 2015 TTCA National Specialty. Our newsletter will continue to share details as information becomes available.

For those of you lucky enough to have shown at Westminster this year, congratulations! It was a beautiful line up! Also a sincere THANK YOU needs to go out to Travis Brock and all those who helped and supported our presence at the American Kennel Club

(AKC) Meet the Breeds in New York City.

On a sadder note the TT world has lost two more dedicated Tibetan Terrier people: Pat Malloy and Chris Friemel, mother of TTCA member Cassandra Basgall. Though Pat was not a club member, she believed in our rescue program and many who knew her have expressed making a donation to Tibetan Terrier Rescue in her memory. Both will be missed by those who knew and cared for them.

Again, I welcome input from all members and hope to see many of you this year at our TTCA National Specialty at the Peek’n Peak Resort, May 29 – June 2, 2017. The show will offer multiple performance venues, including: obedience, rally and agility and testing for AKC Canine Good Citizen and Therapy Dog International titles; TTCA Futurity classes; a 4-6-month puppy class; a breeders class; a special event for pet owners; a two-part educational program featuring Dr. Cassandra Guarino of Cornell University speaking on “Canine Lyme Disease: Detection, Treatment and Prevention” and “Lyme Disease in Humans,” as well as a Judge’s Study Group; a great fundraiser auction (see page 28 in this issue for details); our national and regional shows, including Sweeps, Juniors and Conformation classes on both Thursday and Friday; our TTCA Annual Meeting and dinner; and the fabulous Top 20 Invitational Evening of Champions.

For a schedule and details about the 2017 TTCA National Specialty, see page 30 of this newsletter or click on the link here 2017 TTCA National Specialty.

If we haven’t met, please be sure to look me up at the specialty and introduce yourself or even to and just say hi if we have!

The venerable Pat Nelson is in hospice care.

The internationally respected member of the Tibetan Terrier Club of America (TTCA), creator of the world’s largest Tibetan Terrier pedigree database and early supporter of the Native Tibetan Terrier International Project “is in good spirits” and “very happy to get cards from her friends,” reports daughter Susan Nelson. Beloved by her colleagues and friends around the world for her selfless devotion to Tibetan Terriers, Pat spent years collecting TT pedigrees from stud books from around the world and ultimately compiled the world’s largest TT pedigree database. She then transferred her information to the K9Ped database where she maintained it for years (although the database is currently inactive). Pat was also an early supporter of the Native Tibetan Terrier International Project established to broaden the Tibetan Terrier genetic pool by importing native Tibetan Terriers from their native Tibet.

“Pat has not only been a keen supporter of the Native Tibetan Terrier International Project from its beginning, but was the first to visit the Tibetan Terriers imported to Slovenia, Europe, flying all the way from her home in USA,” according to a statement on the project’s web site. Friends and colleagues can write to her at Pat Nelson, 3433 Touriga Drive, Pleasanton, California 94566.

Agility Trials to Launch TTCA National Specialty Week

The Tibetan Terrier Club of America (TTCA) will kick off its national specialty week with two agility trials: the TTCA All-Breed Agility Trials on Monday, May 29 and the Tibetan Terriers Only Specialty Agility Trials on Tuesday, May 30, 2017. Both events will convene at Countryside Agility Training Center in Erie, Pennsylvania.

TT agility enthusiasts seeking “the full Monty” can also participate in the three-day Hamburg All Breed Obedience Club (HABOC) agility trials May 26 – May 28 at the same location for a full five days of agility.

Air Conditioned

All agility events will take place indoors in an air conditioned, 100’ x 95’ fenced ring equipped with 2-inch grass turf and rubber infill.

Judge

Judge Judith Kolva will bring 8 years of expertise to judge the TTCA All-Breed Agility Trials and the Tibetan Terrier-Only Specialty Agility Trials. Accredited as an agility judge by the American Kennel Club (AKC) and United Kingdom (UK) Agility International (UKI), Ms. Kolva has studied and trained in the Greg and Laura Derrett Ultimate Agility and the Linda Mecklenburg Awesome Paws systems.

Mary Frances Martin's six-time Master Agility Champion MACH6 Danser Swilla “Corey” MACH6 CDX RA MX2 MJS3 MXF TQX. Corey earned his last title on December 30, 2016 at the Canine Performance Events Agility Trials where he qualified three times with three 1st place wins just 10 days before his death on January 9, 2017 at age 11.5 years. Doctors had previously diagnosed Corey with hemangiosarcoma two weeks after his unprecedented September 29, 2016 victory at the Wine Country Circuit dog show where he became the first and only Tibetan Terrier to win six AKC Master Agility Championship titles. Incredibly, seven weeks after surgery and while still undergoing chemotherapy, Corey went on to perform at the Crown Classic in Cleveland (see photo page 14) where he and Mary Frances finished their Rally Excellent title in Obedience. Rest in peace dear boy. Photo courtesy of Martin Frances Martin.

What Dog Owners Want

AKC board sniffs out canine scent work as “a new sport”

Excerpt from the February 2017 American Kennel Club (AKC) Board of Directors Meeting Minutes.

The AKC Board of Directors approved a new sport, AKC Scent Work, at their February 2017 meeting. AKC Scent Work is a sport that mimics the task of working detection dogs to locate a scent and communicate to the handler that the scent has been found. Scent Work is a positive, challenging activity that allows dogs the opportunity to use their strongest natural sense in a way that is fun, engaging, and that builds and strengthens a foundation of trust between the handler and dog. The official launch is October 1, 2017. Clubs interested in holding AKC Scent Work trials and exhibitors interested in participating can find the Regulations here. Any questions regarding this new sport should be sent to ScentWork@akc.org.

Excerpt from page 9 of the January 2017 AKC Board of Directors Meeting Minutes.

The Board reviewed a recommendation for a new sport called AKC Scent Work. Scent Work is a sport that mimics the task of working detection dogs to locate a scent and communicate to the handler that the scent has been found. This proposal responds to many requests that the American Kennel Club provide such an event. Significant research has been done in developing this program and it is believed it will meet the needs of many dog owners.

Scent Work is a fun and engaging activity that taps into the dog’s strongest sense. If approved, clubs may start applying to hold AKC Scent Work events on August 1, 2017. Events may be held starting October 1, 2017. This will be discussed further at the February meeting.”

Simple is Better

Notable changes to AKC policy in the past year intended to make it easier for such clubs as the TTCA to hold events include:

• Clubs can provide premium lists, judging programs and catalogs in digital (electronic) format.
• Clubs can use email rather than postal mail to announce event close-outs.
• The sweepstakes application process is simpler and alleviates the need to provide classes and judges.
• Grooming plans are no longer required.

For other changes, see AKC Board of Directors Meeting Minutes, Sports and Events Initiative, page 20.
AKC to Launch
New Trick Dog Titling Program

The American Kennel Club will launch the AKC Trick Dog Program, a new titling program for all canines with any level of ability but especially those with Canine Good Citizenship (CGC) titles or experience in rally, obedience and agility.

Offered in collaboration with Do More with Your Dog (DMWYD), the program will offer four titles: Novice Trick Dog (TKN), Intermediate (TKI), Advanced (TKA) and Performer Trick Dogs (TKP).

**NOVICE TRICK DOG (TKN):** To earn the TKN title the dog must perform 10 skills from the Novice Tricks Checklist. If a dog has a CGC certificate or title on record at AKC, he must do only 5 novice tricks to earn the TKN title—e.g., high five, jump through a hoop, shake hands, run through a tunnel, etc. The handler may use a food or toy as a lure or food or a clicker as a reinforcer.

**INTERMEDIATE TRICK DOG (TKI):** To earn the TKI title the dog must possess the TKN title and perform 10 tricks on the Intermediate Tricks Checklist—e.g., balance a dog biscuit on his nose or head, carry a basket, catch a soft toy or ball, crawl on her belly, fetch an object, go find a hidden object, jump through the handler’s arms, weave around handler’s legs, find a treat under 1 of 3 cups, etc. The handler may not use food or toy lures but may use food rewards and a clicker as a reinforcer.

**ADVANCED TRICK DOG (TKA):** To earn the TKA title, the dog must possess the TKI title and perform 5 tricks from the Advanced Tricks Checklist—e.g., back up, take a bow, circle right and circle left, cover her eyes, hide her head, play dead, sit or lie down from a distance, take a tissue out of a box and bring it to the handler, etc. The handler may not use food or toy lures but may use food rewards and a clicker as a reinforcer.

**TRICK DOG PERFORMER (TKP):** To earn the TKP title, the dog must possess TKN, TKI and TKA titles and perform a short routine with at least 10 tricks previously learned. The routine may have a story—e.g., “This is my Baby. She hides her face and likes to push the baby carriage with me. We do weaves and circles together.”

GCH Tibicinan Patricia Joli “Sisu” achieved her Level 1 Containers (L1C) Element Specialty Trial title at the National Association of Canine Scent Work (NACSW) K9 Nose Work Trials held January 21-22 in Livermore, California.

Sisu is the second Tibetan Terrier to earn the L1C title. She also earned her Level 1 Exterior (L1E) Element Specialty Trial title on the same day.

The L1C trial required Sisu to perform four separate searches of different types of containers (pizza boxes, plastic boxes, cat boxes, and 20 wrapped birthday presents) and complete each in less than two minutes. Sisu completed the trial in 1:08:06.

In the L1E trial, Sisu completed four exterior searches in a Nascar “chop shop” of more than 50 vehicles with an overall time of 1:05:98, well below the NACSW required time of 2 minutes or less. Well done, Sisu!

This TT nose how to get you started in K9 scentwork

I am writing about K9 nosework because folks have been asking me how to get started. “Help us, Sisu,” they say. “How can we start our canine kids on a more formal nose work routine?” The first thing I tell them is how easy K9 nosework is. “It’s so portable!” I say. “My nose goes everywhere and the world is an adventure!”

I started this sport with my partner Amy Soderman using cardboard boxes for searching. But you can use any kind of container—shoe boxes, Tupperware with holes punched in the top, flower pot, etc. You’ll want to start with placing food in the container, so leave it open so your kid can get at it. The containers do not need to match.

Amy started me with 5 or 6 cardboard boxes and added more over time as I got better and better. I liked boxes because they helped me learn the game, and seeing Amy take them out became my cue in the beginning that the game was on! And it didn’t matter at first that I could see what she was hiding. She just wanted me to hunt.

Your first step is to find out what your canine partner really, really loves. Not likes, LOVES! That is what you will start with as the target for your search. My personal favorite is dried beef heart. This way, we were not focused on the end result so much as we were building up my desire to hunt and scent. My partner is wicked smart at developing my pawtential!

But it was not as simple as it sounds because, like many canine kids, I was reluctant to venture out on my own. After all, I was proud graduate of canine obedience school and happily put my major

They came, they saw, they . . .

. . . seduced everyone they met.

Such is the power of “The Little People.” We know it. And now so do hundreds more who succumbed to the charms of our breed at the 8th annual AKC Meet the Breeds educational event on Saturday, February 11 at the 141st Westminster Kennel Club Dog Show in New York City.

Marking the third year that the family-friendly event upped the ante on canine excitement at the Westminster dog show, Moms, Dads and bairns of all ages lingered and learned about the Tibetan Terrier’s unique qualities that culminate in ‘The Little People’: That profuse double coat, which the folks learned first-hand ranges from minky-silky-soft to Christy-Brinkley-strong and ALWAYS commands your attention. The large, padded snow-shoe-like paws designed to walk across deep Himalayan snow without sinking. The glorious coat colors that range from champagne and honeysuckle to pumpkin and tuxedo black-and-white. Best of all, those unmistakable humanoid traits they keep us spellbound.

TTCA members Flossie Barczewski and Travis Brock fielded questions while sharing that—despite the moniker—The Little People are not ‘terriers per se, although they do, in fact, really Really REALLY come from Tibet where the lamas cherished them for centuries as good luck charms and the foremost companions in the world. And that when His Holiness the Dalai Lama fled Tibet in 1959, he took his Tibetan Terrier “Senge” with him.

skills into practice every day. I’ll admit, it took a bit of convincing that this ‘box and treat’ business was not a set up and that I was really free to search. But when I finally bought in, it was ‘Game on!’ and I never looked back.

So trainers, forget all your obedience commands when initiating canine nosework. Instead, build up your kid’s searching desire. It is important that your best friend learns that she is in control of this game. On the other hand, those of you with canines less caught up in the whole ‘obedience mode’ may be gung-ho. In that case, your biggest challenge will be reeling in your kids and getting them to focus. You know who you are!

Your goal as a human partner when starting out is to learn how to read your canine partner and to pick up on the subtle signals that she communicates on the trail of the target. Whether you are using food or toys is not relevant—only that your hound is motivated to hunt. There are advantages and disadvantages to either food or toys as targets and then as rewards.

When starting out, it’s helpful to work with a training partner, but it’s not mandatory. Just know that if you are training independently, you will need to be able to back tie your pup so you can entice her and put the reward in a box without her following you from box-to-box.

If your tail wagger is reluctant to move away from you, casually stroll around as if you are just going for a walk. If she needs a bit more encouragement, nonchalantly investigate each box. As soon she shows ANY level of interest in the box with the reward, run over and enthusiastically shout, “Good girl!” and either bestow a goodie or play tug-a-toy with her right at the box. The key is to REWARD AT THE BOX!

Not everyone can win a trophy

But anyone can be a trophy sponsor

The Tibetan Terrier Club of America (TTCA) National Specialty is one of the best places in the world to spend time with others who share your passion for Tibetan Terriers. There is no better opportunity to learn about our unique breed, whether ringside at the show or on the hotel lawn where everyone meets in the morning to walk and relieve their Little People before heading off for that day’s events.

And while you may not have a TT entered in the national, your donation, sponsorship and continued support is vital to its success.

But you don’t need to be a big donor to make a big difference. You can sponsor a trophy for as little as $15. Just click here to go directly to the Trophy Donation page and use Paypal to contribute. Or enter http://www.ttcastore.com/Trophy-Donations_c10.htm into your web browser.

To pay by check, download the form from the TTCA web site or use the form on page 24. Make checks payable to TTCA and mail to:

Money Matters

Just think . . .

The 24-page Jan-Feb 2017 issue of The TT Times cost $748.21 to print and mail to approximately half of the club’s ~ 400 members. It was available in black and white only and took 10-15 days to reach subscribers, depending on geographic location. The full-color, electronic version with live hyperlinks to background information and video was available in a nanosecond and cost $000.00.
